Let us speak out loudly in all meetings along with all the members that I am the divine light member of the Eurasia Reiyukai.

A summary of the guidance provided by the Founder President at the grand gathering of the 17th Branch on 14th February 2015

- Eurasia Reiyukai has the 'Blue Sutra'. You must have joined this organisation to remember your ancestors. The Blue Sutra is called a medicine to treat or cure inner feelings. Doctors cure physical illness but are unable to cure mental illness.
- We are on the path of remembering ancestors. From now onwards let's develop ourselves and help to develop the nation too. Leaders for the mission to establish world peace, are hereby, requested to change their way of thinking and the way of their lives too.
- It was, only when I attended the youth hood, I started thinking seriously about what Reiyukai teaching is about. From then onward with the help of this teaching I started realising why I was born as a human being in this world. We are not born as a wild animal, being human we must live our lives as a good human being.
- Our lives and our physical bodies are provided by our parents, but after being born we must realise that there must be some duties levied upon us to perform. I started realising the fact that all human beings are equally responsible for performing the duty like myself.
- In the present world, the problem of the climatic change has been a matter of great concern. Similarly, the other problem is the problem of killing one-another. Hence, by whatever means, human beings are to decide and to work for the betterment of our world. Animals do not have this feeling. But we can't live without being grateful for having such a wonderful life. We are here to change the world from bad to good. We must also be thankful for this opportunity.
- Money can't bring the change in our lives. To change the fate, no one can help us other than ourselves. This is the reason why an individual must develop his own inner soul and gradually build his own fate.
- Worshipping any religion is the culture of a particular family or a nation and one should do it. The pillar of Reiyukai Teaching is to save the souls of uncountable ancestors who have relation with us. We are in the position of a saviour rather than being saved. It is called the "Bodhisattavas". You are also Bodhisattavas.
- You are the gems of your country. Rise above, rather than thinking for others. Make them think of their way of lives, teach them to become grateful to their forefathers, who are the source of our lives.
- Be happy, a happy and smiling face makes you approachable and even helps you to share your feelings easily with other people.
- To bring changes in our societies gradually, we are working on cleanliness in villages, towns. Let's take responsibility to return gratitude to the nation by developing yourself as a leader with the capacity to organise cleanliness Programmes in villages and towns with the support of our members and even non members. In this way let's develop Nepal and India will do the same in India. Let's also avail the opportunity to save the continent of Eurasia and which shall be a step ahead towards the establishment of world peace.
- Please bring happiness and pleasure to your home by adopting and implementing the teachings of Reiyukai.

Inauguration of Ambulance by the auspicious hand of Eurasia Reiyukai Founder

On 21st April 2015, the Founder President of Eurasia Reiyukai inaugurated Eurasia Reiyukai Ambulance Service at the Eurasia Reiyukai Head Quarter, Siliguri. The Ambulance shall provide services to the people of Kalimpong in India.

Heartfelt condolence and sympathy

On B.S. 12th Baisak 2072, English 25th April 2015, Saturday, the devastating Earthquake had hit Nepal resulting in large number of loss of lives as well as loss of enormous wealth. We express our hearty tribute to the departed souls and also express our heartfelt condolences and sympathy to all the family members who have lost their near and dear ones.

We pray for the early recovery of their health who have suffered injuries in this unimaginable national disaster. We are greatly shocked by this disaster that has caused a great loss of human lives, infrastructural losses, loss of historical building. However, we strongly believe in our heart that all the families, society and the nation itself shall rebuilt leaving the sad time behind. We pray for the reconstruction of this nation to its earlier stage with the support of all our members. Let's be united to help one-another and achieve success in rebuilding the nation again.
