## Guidance delivered to Youth Development Shikkobu by Founder President

We should take the opportunity to perform michibiki in order to awaken Bodhi Soul to those who lack the feelings of Bodhi soul. One is born carrying the mission of saving this world with the sense of Mahayana. We received this life and body from our parents but we didn't receive the mission from them, neither from our ancestors. Before we were born we made a promise to Budhha saying "I will implement and show the result." Therefore we must fulfill our responsibility and duty accordingly. As a human being we are born carrying both good and bad karmas. The Youth Development Shikkobu must get an opportunity to fulfill their responsibility and duty. One cannot fulfill their responsibility and duty unless one gets rid of their bad karma. One must find out what that is. This is one's development. One must get the opportunity to do michibiki and learn from their members. One must find out their bad karma by looking at one's member's image. By getting the opportunity to practice the precious teaching of Bushhogonen, one gets a result accordingly. And that result is called experience. The results one gets by implementing and by making others implement is the experience of Happiness. Therefore experience is divyajyoti (Devine Light). People who gains experience is like becoming a divyajyoti (Devine Light) oneself. We must produce as many people with experience of Divyajyoti (Devine Light). One must have a heart of gratitude and apology. As the heart changes ones words and attitude also changes. By looking at others they feel that the person has changed and wants to become like that. The most visible facial attitude is Smile. In Reiyukai one must built a world of Smile. One must make the spiritual world also a world of smile. We must give smile to our ancestors as well. To give smile to the ancestors in the spiritual world, one must give an opportunity to the ancestors to retrospect and realize their mistakes by listening to the Blue sutra recited by their descendants. As a

gratitude they bless their descendants of that house. If one gets an opportunity to write and implement as many homyos as possible of their ancestors, there'll appear a positive change in the house. Therefore, in order to save Eurasia Continent one must create a home where everyone lives a life centered on their ancestors. Recently a massive earthquake occurred in Nepal followed by various ups and downs in the country, it is in a problematic condition. Such condition is created by non other than the living beings. This shows how unsatisfied the ancestors of Nepal are. This is the situation prevailing, therefore it is necessary to do michibiki. By getting the opportunity to do michibiki, one must save as many soul of ancestors as possible. The teachings of Reiyukai is the teaching of ancestral remembrance, karmic purification and paying for ones sins through self repentance. Thus, by getting the opportunity to do ancestral remembrance, we must get blessing from them. And thereby getting the opportunity to fulfill ones responsibility and duties we must bring Nepal back to its previous state.

## Information regarding 9th and 18th Gatherings

Let us all attend the gatherings of 9th and 18th of every month along with our members to listen to the experiences of joy as well as to exchange our personal experiences of joy gained after practicing the teaching of Reiyukai in our lives.

We are continuously active by extending our hand of support

To live in harmony is life.

In the beginning of New Year 2072, Nepal had to bear unimaginable losses from the devastating Earthquake. So far with the pain of 8974 people losing their lives 22,321 people were injured and more than 8 lakh physical infrastructure and monuments collapsed. Soon after the devastating earthquake having received the guidance of Eurasia Reiyukai Founder President Mr. Masunaga Yushun and accordingly through Natural Environment Protection and Disaster Resistance Committee we availed the opportunity to mobilize and carry out relief activities in the earthquake affected areas. After that all members and citizens came together and began reconstruction work. Till date we availed opportunity to conduct various co-operative works in different remotest areas of Sindhupalchowk, Dolakha, Kavrepalanchowk, Kathmandu, Lalitpur, Bhaktapur, Dhading, Newakot Districts. We take the opportunity to distribute daily necessary foodstuff, Tents, Mosquito nets, Drinking Water, Tin Sheet, Drinking Water Tanks, Housing construction tools as well as daily articles required for children, educational articles, Bags and cloths (Shirt & Pants). These sorts of activities are frequently conducted by us. The local resident, school and children who received relief extended their heartfelt gratitude to the Eurasia Reiyukai.
