After availing opportunity to become a member I have been participating 9th and 18th day gatherings regularly and availing the ample opportunity to practice the same. I have been practising having received the opportunity to listen the guidance of Founder President through Mihata Responsible Shibucho and other Shibuchos. I have been implementing myself the pragmatic practices of Greetings, Thankfulness and Forgiveness of Reiyukai

and take the opportunity to do michibiki by participating the gatherings and really influenced by the three pillars of the Reiyukai teachings ancestral remembrance, Purification of karmic relation and purification of misdeed through the practice of repentance. I have availed the opportunity to practice by enshrining Sokaimyo at my home through Shibucho. I take the opportunity to enshrine the Sokaimyo with the help of Shibucho and Michibiki Oya having realised to make the members home delighted and ever happier.

I have been participating the voluntary social activities and various social and teaching activities organised at Dhangadi office. I availed the opportunity to make my members happy and prosperous by implementing myself along with my members and also take the opportunity to implement Blue Sutra too. Finally, I promised to be a divine light youth of the Eurasia Reiyukai having applying the Gohomyo Ceremony to be held in the year 2016 and take the opportunity to practice 100 days practices so as to write the sokaimyos of 50 members homes by my own hands being a benevolent layman bodhisattava.
